

November 02, 2025: On First Responders Being Used as Props in a Script of Terror Against Our Home

I am writing to record that at 2:44 p.m., just one minute ago, an emergency vehicle drove past our home with lights and sirens activated.

This is the continuing use of first responders, EMS, Fire, and SAPD to engage with my home and travel in a way that threatens us, exhibits an ongoing coordination with Donald Trump's other terroristic tools and shows that **the criminal conspiracy to cause innocent Americans harm by the use of the tools that were supposed to be protecting them has invaded into the inner most heart and nerve centers of our country.**

Let this mark the definitive proof that SAFD, SA EMS Units, and SAPD are all working in unison with the USA military to cause terrorism and harm to our home.

This is the current state of 'America' and, in my opinion, does truly exhibit that we are now ruled over by a military coup de tat.

We have nowhere that we can turn to to help us enforce our rights.

There is no law enforcement available to me that can help my home become safe from the TERRORISM that has consumed Donald Trump and his Nazi-Republican Party.

Yes, Donald Trump - you have officially 'conquered' the country that you relied upon to become a giant 'pimple of American prosperity' - you are truly the worst piece of shit on the planet.

Obviously, this is not the type of behavior that I will ever respect, admire, thank, or salute - ever again.

American military: you have ruined yourselves from the inside.

Your lack of enthusiasm is your own creation.

Your low morale is directly related to your low morals.

Own it, eat it, and get fucked.

Seriously, there are a thousand call girls waiting to fuck you losers, get at em!
